This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claims 1-11 (canceled).

Claim 12 (previously presented): An siRNA molecule that reduces expression of the TGF β type II receptor, wherein the siRNA molecule is 19-25 base pairs in length and targets at least a portion of the coding sequence of a nucleic acid molecule comprising the nucleic acid sequence of SEQ ID NO:159.

Claim 13 (previously presented): A composition comprising the siRNA molecule of claim 1 and a pharmaceutically acceptable carrier.

Claim 14 (previously presented): The composition of claim 2, further comprising a wound healing agent.

Claim 15 (previously presented): A method for promoting wound healing in a mammal comprising administering a therapeutically effective amount of a composition comprising the siRNA molecule of claim 12 to a mammal in need of treatment.

Claim 16 (previously presented): A method for inhibiting fibrosis in a mammal comprising administering a therapeutically effective amount of a composition comprising the siRNA molecule of claim 12 to a mammal in need of treatment.

Claim 17 (previously presented): A method for inhibiting angiogenesis in a mammal comprising administering a therapeutically effective amount of a composition comprising the siRNA molecule of claim 12 to a mammal in need of treatment.

Claim 18 (previously presented): A method for preventing glaucoma in a mammal comprising administering to a mammal in need of treatment a therapeutically effective amount of a composition comprising the siRNA molecule of claim 12.

Claim 19 (previously presented): A method of preventing restenosis in a mammal comprising administering to said mammal a therapeutically effective amount of a composition comprising the siRNA molecule of claim 12.

Claim 20 (previously presented): A method of preventing or treating scarring in a mammal comprising administering to said mammal a therapeutically effective amount of a composition comprising the siRNA molecule of claim 12.
